Conforms to ANSI Z400.1-2004 Standard (United States, Canada).

Material Safety Data Sheet

AMSOIL Injector Oil

Section 1.	Product a	nd compan	y identification
			J · · · · · · · · · · · · · · · · · · ·

Date : 07/15/2013 Version : 1

Product name AMSOIL Injector Oil Material uses Lubricating oil. Not to be misted. Supplier/Manufacturer

AMSOIL INC. 925 Tower Avenue Superior, WI 54880 Code

AIO MSDS authored by AMSOIL INC. In case of emergency CUEMTRES INS. 14 900 424 929

CHEMTREC, U.S. : 1-800-424-9300 International: +1-703-527-3887

Section 2. Hazards identification

Emergency overview Color : Blue. **Physical state** : Liquid. [Clear.] Odor : Mild hydrocarbon. Signal word : WARNING! **Hazard statements** : COMBUSTIBLE LIQUID AND VAPOR. CAUSES EYE AND SKIN IRRITATION. **Precautions** : Keep away from heat, sparks and flame. Avoid contact with eyes, skin and clothing. Use only with adequate ventilation. Wash thoroughly after handling. **OSHA/HCS** status : This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200). : Dermal contact. Eye contact. Inhalation. Ingestion. **Routes of entry** Potential acute health effects Inhalation : No known significant effects or critical hazards. Ingestion : No known significant effects or critical hazards. Skin : Irritating to skin. : Irritating to eyes. Eyes Potential chronic health effects **Chronic effects** : No known significant effects or critical hazards. Carcinogenicity : No known significant effects or critical hazards. **Mutagenicity** : No known significant effects or critical hazards. : No known significant effects or critical hazards. Teratogenicity **Developmental effects** : No known significant effects or critical hazards. **Fertility effects** : No known significant effects or critical hazards. Over-exposure signs/symptoms Inhalation : No specific data.

Ingestion Skin		No specific data. Adverse symptoms may include the following: irritation redness
Eyes	:	Adverse symptoms may include the following: pain or irritation watering redness
Medical conditions aggravated by overexposure	:	None known.

See toxicological information (Section 11)

Section 3. Composition/information on ingredients

United States		
Name	CAS number	%
Solvent Mixture	64742-47-8 / 64742-88-7	10 - 30
Canada		
Name	CAS number	%
Solvent Mixture	64742-47-8 / 64742-88-7	10 - 30

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Section 4. First aid measures

Eye contact	 Immediately flush eyes with plenty of water for at least 20 minutes, occasionally lifting the upper and lower eyelids. Get medical attention if symptoms occur.
Skin contact	 After contact with skin, wash immediately with plenty of soap and water. Get medical attention if symptoms occur.
Inhalation	: Move exposed person to fresh air. Get medical attention if symptoms occur.
Ingestion	: Wash out mouth with water. Do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.
Notes to physician	: No specific treatment. Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

AIO

Section 5. Fire-fighting measures

Flammability of the product Extinguishing media	: Combustible liquid.
Suitable	: Use dry chemical, CO ₂ , water spray (fog) or foam.
Not suitable	: Do not use water jet or water-based fire extinguishers.
Special exposure hazards	: Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.
Hazardous decomposition products	: No specific data.
Special protective equipment for fire-fighters	: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Section 6. Accidental release measures

Personal precautions	: Shut off all ignition sources. No flares, smoking or flames in hazard area. Provide adequate ventilation. Put on appropriate personal protective equipment (see Section 8).
Environmental precautions	: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
Methods for cleaning up	
Small spill	 Absorb with an inert dry material and place in an appropriate waste disposal container. Use spark-proof tools and explosion-proof equipment. Dispose via a licensed waste disposal contractor.
Large spill	: Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Use spark-proof tools and explosion-proof equipment. Dispose via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

Section 7. Handling and storage

Handling

: Put on appropriate personal protective equipment (see Section 8). Avoid contact with used product. Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Avoid contact with eyes, skin and clothing. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use non-sparking tools. Take precautionary measures against electrostatic

: Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

Section 8. Exposure controls/personal protection

United States

Storage

Ingredient	Exposure limits
Solvent Mixture	ACGIH TLV (United States, 1/2012). Absorbed through skin. TWA: 200 mg/m ³ 8 hours. OSHA PEL (United States, 6/2010). TWA: 100 ppm 8 hours. TWA: 400 mg/m ³ 8 hours.

<u>Canada</u>

Occupational exposure limi	ts	TWA	8 hour	s)	STEL	(15 min	s)	Ceilin	g		
Ingredient	List name	ppm	mg/ m³	Other	ppm	mg/ m³	Other	ppm	mg/ m³	Other	Notations
Solvent Mixture	US ACGIH 1/2012	-	200	-	-	-	-	-	-	-	[1]

[1]Absorbed through skin.

Consult local authorities for acceptable exposure limits.

Recommended monitoring procedures	ersonal, workplace atmosphere or biological monitoring may be required e effectiveness of the ventilation or other control measures and/or the ne spiratory protective equipment.	
Engineering measures	e only with adequate ventilation. Use process enclosures, local exhaus ner engineering controls to keep worker exposure to airborne contamina commended or statutory limits. Use explosion-proof ventilation equipment of the second seco	ints below any
Hygiene measures	sure that eyewash stations and safety showers are close to the worksta ash hands, forearms and face thoroughly after handling chemical produ ting, smoking and using the lavatory and at the end of the working perio	cts, before
Respiratory	ot required under normal conditions of use. Respirator selection must be own or anticipated exposure levels, the hazards of the product and the s nits of the selected respirator. Ensure a MSHA/NIOSH-approved respiration uivalent is used.	safe working
Hands	e gloves appropriate for work or task being performed. Recommended ober (latex).	: Natural

Eyes	: Safety eyewear should be used when there is a likelihood of exposure. Recommended: Safety glasses with side shields.
Skin	: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. No special protective clothing is required. Recommended: Coveralls.
Environmental exposure controls	: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation.

Section 9. Physical and chemical properties

Physical state	: Liquid. [Clear.]	Odor	: Mild hydrocarbon.
Color	: Blue.	рН	: Not available.
Flash point	: Open cup: 88°C (190.4°F) [Not applicable.]	Auto-ignition temperature	: Not available.
Flammable limits	: Not available.	Melting point/ Pour point	: -53°C (-63.4°F)
Boiling point	: Not available.	Vapor pressure	: Not available.
Relative density	: 0.8697	Vapor density	: Not available.
Volatility	: Not available.	Evaporation rate	: Not available.
Viscosity	: Kinematic: 0.069 cm ² /s (6.9 cSt) (100°C) Kinematic: 0.353 cm ² /s (35.3 cSt) (40°C)	Solubility	: Not available.

Section 10. Stability and reactivity

Chemical stability	: The product is stable.
Conditions to avoid	: Avoid all possible sources of ignition (spark or flame). Do not pressurize, cut, weld, braze, solder, drill, grind or expose containers to heat or sources of ignition.
Materials to avoid	: Reactive or incompatible with the following materials: oxidizing materials.
Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.
Hazardous polymerization	: Under normal conditions of storage and use, hazardous polymerization will not occur.

Section 11. Toxicological information

Acute toxicity

There is no data available.

Chronic toxicity

There is no data available.

Irritation/Corrosion	
Skin	: There is no data available.
Eyes	: There is no data available.
Respiratory	: There is no data available.
<u>Sensitizer</u>	
Skin	: There is no data available.
Respiratory	: There is no data available.
Carcinogenicity	
Classification	

Product/ingredient name	ACGIH	IARC	EPA	NIOSH	NTP	OSHA
Solvent Mixture	A3	-	-	-	-	-

Mutagenicity

There is no data available.

Teratogenicity

There is no data available.

Reproductive toxicity

There is no data available.

Section 12. Ecological information

Ecotoxicity

Not available.

: No known significant effects or critical hazards.

Aquatic ecotoxicity

Product/ingredient name	Result	Species	Exposure
Solvent Mixture	Acute LC50 2200 μg/l Fresh water	Fish - Lepomis macrochirus	4 days

Persistence/degradability

There is no data available.

Section 13. Disposal considerations

Waste disposal

: The generation of waste should be avoided or minimized wherever possible. This material and its container must be disposed of in a safe way. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Empty containers or liners may retain some product residues. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor.

Disposal should be in accordance with applicable regional, national and local laws and regulations.

Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees.

Section 14. Transport information

North America

Regulatory information	UN number	Proper shipping name	Classes	PG*	Label	Additional information
