

TOP AMSOIL PRODUCTS FOR LANDSCAPERS

Spring is around the corner, and it'll soon be time to prepare landscaping equipment for the summer season.

Formula 4-Stroke® Synthetic Small Engine Oil

AMSOIL Formula 4-Stroke® Synthetic Small Engine Oil (ASE) is a robust formulation designed for hot-temperature, severe-service operation of small engines where routine maintenance is often difficult or infrequent. Formulated with premium synthetic base oils that exceed both 10W-30 multi-grade and SAE 30 straight-grade viscosity requirements, it provides outstanding protection in temperature extremes, while helping improve productivity and reduce maintenance costs.

SABER® Professional Synthetic 2-Stroke Oil

Specially formulated for pre-mix, air-cooled applications, AMSOIL SABER® Professional Synthetic 2-Stroke Oil (ATP) withstands high heat and stress to protect engines against wear and harmful deposits. It can be mixed at conventional mix ratios (32:1, 40:1, 50:1) or the SABER Ratio™ (80:1, 100:1), which offers an uncompromising combination of convenience, savings and protection. SABER eliminates the need for mixing different ratios for different equipment. When used at the SABER Ratio, smoke is virtually undetectable.

Premium Synthetic Diesel Oil

AMSOIL Premium Synthetic Diesel Oil (DEO, DME) is the premium choice for diesel- and gasoline-powered transport vehicles. Formulated with the latest additive and synthetic base oil technology, it exceeds the higher performance demands of modern engines, withstanding the stress of heat, soot and acids to help prevent deposits, wear and corrosion over extended drain intervals.

Quickshot®

AMSOIL Quickshot® (AQS) is a premium fuel additive formulated to thoroughly clean and restore peak performance in small-engine fuel systems. It also stabilizes fuel between uses and during short-term storage periods. Its revolutionary technology focuses on three major fuel-related issues plaguing small engines: ethanol, water and dirty pump gas.

Semi-Synthetic Bar and Chain Oil

Ideal for chainsaws, the tacky formula of AMSOIL Semi-Synthetic Bar and Chain Oil (ABC) clings to metal surfaces better than other oils. It delivers excellent lubrication and protection, while anti-wear additives extend the life of bar and chain applications ■
