

AMSOIL Bar and Chain Oil

AMSOIL Semi-Synthetic Bar & Chain Oil

- Reduces drag for optimized efficiency
- Helps extend chain life
- Tenaciously clings to metal surfaces for superior lubrication and protection

AMSOIL Synthetic Greases

AMSOIL Synthetic Multi-Purpose Grease

- Designed for multiple-use applications, including wheel bearings and chassis components
- Excels in both high and low operating temperatures
- Excellent adhesion properties and water-washout resistance
- Helps reduce repair and maintenance costs

AMSOIL Synthetic Water-Resistant Grease

- Formulated to resist washout and protect in wet environments
- Helps seal metal surfaces and chemically fights corrosion
- Reduces friction, helping equipment run cooler
- Helps protect against wear, even under heavy loads

The AMSOIL Grease Gun Kit & 3-oz. cartridges are the perfect size for lawn & garden applications.

SYNTHETIC MOTOR OIL

ACCESSORY PRODUCTS

The First in Synthetics®

Performance and protection for two-stroke and four-stroke engines

Few engines rev faster and run hotter than those found in lawn and garden equipment. It is pushed to the limit, and neither homeowners nor professionals have the time or energy for frequent maintenance. AMSOIL two- and four-stroke synthetic motor oils are designed to resist the damaging effects of high heat and friction better than conventional oils. Their advanced synthetic formulations help lawn and garden equipment demonstrate peak performance and long life, saving time and money.

AMSOIL Synthetic 2-Stroke Oil

Professional landscapers and homeowners often use multiple pieces of two-stroke equipment, including chainsaws, string trimmers, blowers and shredder vacs, that can call for different fuel/oil mix ratios. Mixing and storing multiple cans of fuel is inconvenient and confusing. SABER® Professional Synthetic 2-Stroke Oil mixed at the SABER Ratio™ eliminates those hassles by using a single mix ratio for all your equipment. It's tested and proven at the SABER Ratio (100:1 or 80:1) to help reduce wear, plug fouling, ring sticking, exhaust port blocking and corrosion. Although SABER Professional can be used at the conventional mix ratios recommended by equipment manufacturers, use the SABER Ratio for maximum convenience and cost savings.

- Saves time and money
- Low smoke
- Stabilizes fuel
- Mix at conventional ratios or the SABER Ratio

AMSOIL Synthetic 4-Stroke Oils

Four-stroke engines found in mowers, tillers, lawn tractors and other equipment can quickly break down inferior oils and lead to component wear, especially in daily-use commercial equipment. AMSOIL Formula 4-Stroke® 10W-30/SAE 30 Synthetic Small Engine Oil and 10W-40 Synthetic Motor Oil resist thermal degradation better than conventional oils. They guard against wear and deposits for long-lasting protection, delivering peace of mind that your equipment is protected in the toughest conditions.

- Commercial-grade performance
- Guard against wear
- Long-lasting protection

Other AMSOIL Products

AMSOIL Quickshot®

Formulated to thoroughly clean varnish, gums and insoluble debris in two- and four-stroke gasoline-powered small engines and powersports fuel systems, restoring peak performance. Addresses performance issues related to ethanol, water and dirty pump gas. Stabilizes fuel between uses and during short-term storage.

AMSOIL Synthetic Tractor Hydraulic/Transmission Oil

All-weather SAE 5W-30 formulation engineered to reduce wear, control hydraulic fade, protect seals and hoses, promote smooth brake operation and increase lubricant and equipment life in hydraulic and hydrostatic-powered applications. High viscosity index and low pour point virtually eliminate seasonal oil changes and meet the all-weather requirements of both John Deere J20C and J20D and Ford New Holland FNHA-2-C-200.00 and 2-C-201.00.

AMSOIL Storage Products

AMSOIL delivers dependable protection for all two- and four-stroke equipment, even during storage.

AMSOIL Gasoline Stabilizer

- Keeps fuel fresh up to 12 months
- Powerful oxidation and corrosion protection system resists gasoline breakdown
- Guards against formation of varnish and gums that clog carburetors and injectors

AMSOIL Engine Fogging Oil

- Long-term protection against corrosion and dry starts
- Helps extend engine life
- Promotes reduced maintenance costs
