

Chris Borich
6x AMSOIL
GNCC Champion

The most prestigious and competitive racing series in the nation recognize the superior protection and performance of AMSOIL synthetic lubricants. Monster Energy Supercross, the Monster Energy Cup, AMSOIL Arenacross, Loretta Lynn's Amateur Nationals, AMA ATV Motocross and the AMSOIL GNCC Series all proudly feature AMSOIL as their Official Oil.

You take care of your ATV and UTV. Take care of your truck, too.

You need your truck to get your ATV or UTV to the trail or your hunting site. AMSOIL synthetic lubricants are designed to withstand the harmful effects of towing and hauling – extreme heat, wear, harmful deposits – better than other oils. AMSOIL synthetic lubricants deliver outstanding protection for your ATVs, UTVs and the vehicles that tow them.

AMSOIL Synthetic Diesel Oils

- Maximum protection against wear, sludge & soot
- Formulations available to help extend DPF life
- Excellent high- and low-temperature protection
- Optimum fuel economy

AMSOIL Synthetic Motor Oils

- Superior wear protection
- Excellent high- and low-temperature protection
- Outstanding fuel economy
- Choose your drain interval

Contact your local full-service AMSOIL Dealer for more information on AMSOIL products or to place an order. You may also order direct by calling AMSOIL INC. at 1-800-956-5695 and providing the referral number listed here. ▼

AMSOIL synthetic lubricants are purpose-built for hard-working and performance ATVs and UTVs.

Your ATV or UTV provides the freedom to work your land and the performance to conquer tough terrain. You've invested thousands of dollars into your machine and the accessories needed to get the job done or get out front of your buddies on the trail. AMSOIL synthetic lubricants deliver upgraded performance and protection for hard-working, hard-riden ATVs and UTVs. Upgrading to AMSOIL performance lets you safely and confidently push your machine to the limit.

AMSOIL Synthetic ATV/UTV Motor Oil

ATVs and UTVs used for work or play place unique demands on motor oil, particularly if you've upgraded your machine with accessories – skid plates, door and roof panels, a plow, a winch – that add weight and increase severity of operation. Extreme heat generated from hard work or aggressive riding increases stress on engine components. Oils formulated for standard service can lose viscosity, which increases the likelihood of wear and formation of harmful deposits. AMSOIL Synthetic ATV/UTV Motor Oil delivers reserve protection against heat, which guards against wear and helps prevent varnish and sludge.

AMSOIL 10W-40 Synthetic ATV/UTV Motor Oil

- Outstanding severe-service wear protection
- Delivers confidence in clutch feel
- Wet-clutch compatible

AMSOIL 5W-50 Synthetic ATV/UTV Motor Oil

- Performs in extreme heat and cold
- Outstanding severe-service wear protection
- Engineered for use in ATVs and UTVs that require 5W-50 motor oil, including the Polaris Ranger, RZR and Sportsman*
- Delivers convenience by replacing OEM-branded 5W-50 and 10W-50 oils

AMSOIL Synthetic Drivetrain Lubricants

Transmission and differential maintenance is easy to overlook. Heavy hauling or towing increases stress on gears and bearings. Navigating tough terrain or riding hard to stay out in front of your buddies also increases heat and the potential for harmful component wear. AMSOIL Synthetic ATV/UTV Transmission and Differential Fluid and Synthetic ATV/UTV Front Drive Fluid guard against wear in the toughest riding conditions, helping you get the most out of your machine.

AMSOIL Synthetic ATV/UTV Transmission and Differential Fluid

- Protects heavily loaded gears against wear
- Superior all-weather protection

AMSOIL Synthetic ATV/UTV Front Drive Fluid

- Protects heavily loaded gears against wear
- Engineered for use in hubs and centralized clutches, including those made by Polaris and Hilliard*
- High-quality alternative to Polaris Demand Drive Fluid*

AMSOIL Quickshot®

Degraded fuel presents major problems for ATV and UTV engines. It can form varnish, gum and insoluble debris that clog carburetors, fuel injectors and fuel filters. Carbon buildup can form on the tops of pistons, causing pre-ignition, rough idling and poor throttle response. AMSOIL Quickshot is formulated to thoroughly clean and restore peak performance in ATV and UTV fuel systems. Its revolutionary technology addresses problems associated with ethanol, water and dirty pump gas.

- Fights ethanol-related problems
- Cleans varnish, gum and insoluble debris
- Stabilizes fuel between uses & during short-term storage

All trademarked names and images are the property of their respective owners. No affiliation or endorsement, express or implied, is provided by their use.

AMSOIL Synthetic Chaincase & Gear Oil

Difficult access makes chaincase and gearcase service easy to overlook. AMSOIL Synthetic Chaincase & Gear Oil stays fluid in cold weather to reduce drag and maximize power. Its extreme-pressure additives deliver long-lasting wear protection, even if service is delayed.

- Long-lasting wear protection
- Maximizes power to the ground
- Recommended for virtually all brands

AMSOIL Suspension Fluid

- Controls friction & heat
- Limits shock fade and inconsistent dampening
- Light #5: Quick rebounds under extreme temperatures
- Medium #10: More dampening & slower rebounds

AMSOIL Metal Protector

- Lubricates and protects metal surfaces
- Disperses water
- Penetrates existing rust build-up

AMSOIL Ea® Oil Filters

- Maximize wear protection
- Stops smaller contaminants than other filters

AMSOIL Synthetic Multi-Purpose Grease

- Designed for multiple-use applications, including wheel bearings and chassis components
- Excels in both high and low operating temperatures
- Excellent adhesion properties and water-washout resistance

The AMSOIL Grease Gun Kit and 3oz. cartridges are perfect for ATVs and UTVs.
