### Diesel Injector Clean + Cold Flow

Combines the superior detergency and lubricity of AMSOIL Diesel Injector Clean with the excellent anti-gelling properties of AMSOIL Diesel Cold Flow in one convenient package without sacrificing performance.

### Diesel Recovery

Quickly liquefies gelled diesel fuel, thaws frozen fuel filters and reduces the need for a new filter, saving money and allowing the operator to continue driving with minimal downtime.

### Gasoline Stabilizer

Formulated to keep gasoline from deteriorating during storage. Reduces the oxidation process to help prevent varnish and gum buildup, which can clog injectors, stick floats and cause poor engine performance.

### P.i.® Performance Improver

Ranks among the most potent gasoline additives available today. Formulated to clean combustion chamber deposits, intake valve deposits and fuel injector deposits, eliminating the need for expensive fuel injector cleaning procedures. Helps maintain peak engine efficiency, fuel economy, power and drivability in newer low-mileage engines. In engines with accumulated deposits, P.i. provides up to 5.7 percent improved fuel mileage, reduced emissions, restored power and performance, reduced need for higher octane fuel, reduced carbon rap and preignition, better drivability and smoother operation.

### AMSOIL Miracle Wash®

AMSOIL Miracle Wash is a unique dry car wash that delivers outstanding performance and quick, easy and economical application. Its special formulation lifts dirt, holds it in suspension and shields surfaces from abrasion. Miracle Wash repels dust and light dirt and protects automotive finishes from the sun's ultraviolet rays.

### AMSOIL Metal Protector

AMSOIL Metal Protector effectively lubricates moving parts, silencing squeaks without gumming up mechanisms. It effectively displaces moisture from freshwater or saltwater to help prevent corrosion, and it is the product of choice for drying and protecting electrical and ignition systems. Metal Protector penetrates deep through rust and corrosion to restore movement of rusty parts, and it helps prevent jamming, especially in cold weather.

### Formula 4-Stroke® Synthetic Small Engine Oil

AMSOIL Formula 4-Stroke Synthetic Small Engine Oil is a robust formulation designed for high-temperature, severe-service operation of small engines where routine maintenance is often difficult or infrequent. It is formulated with premium synthetic base oils that exceed both 10W-30 multi-grade and SAE 30 straight-grade viscosity requirements.

- **Robust** stay-in-grade performance
- **Outstanding** all-season protection
- **Perfect** for RV generators
- **Commercial-grade** protection

## AMSOIL Synthetic Gear Lubes

AMSOIL synthetic gear lubes deliver outstanding wear protection. They help extend gear life by protecting critical parts from deposits and surface distress, even in sustained high-temperature service. AMSOIL synthetic gear lubes can help increase fuel economy by reducing friction better than petroleum gear lubes. They also offer outstanding rust and corrosion protection for stored motor homes.

**AMSOIL Long Life Synthetic Gear Lube and 80W-90 Synthetic Gear Lube** Engineered to protect gears better than conventional gear oils, effectively maintaining viscosity for maximum wear control.

**AMSOIL Severe Gear® Synthetic EP Gear Lube** Specifically engineered to provide extra protection for high-demand applications, including trailer towing and heavy hauling.

## AMSOIL Synthetic Automatic Transmission Fluids

AMSOIL synthetic automatic transmission fluids are chemically engineered to provide exceptional lubricating protection and substantially longer service life than conventional petroleum fluids. They protect transmissions from the tremendous internal heat generated in the demanding, severe operating conditions of motor homes. AMSOIL Synthetic ATFs resist oxidizing in temperatures that oxidize conventional automatic transmission fluids to protect clutches, planetary gears, valves, pumps and seals. AMSOIL ATFs' excellent low-temperature fluidity provides smooth shifting and excellent fuel economy in cold temperatures.

**Signature Series Synthetic Automatic Transmission Fluid** Multifunctional. Formulated with reserve protection for excellent performance over twice the manufacturer-recommended interval for severe service.
