

Product One Voice Q&A

Product: Silicone Spray (ALS)

Product Area: Heavy Duty

Created: 05/28/2013

Published Date: 07/15/2013

1. Question:

What is AMSOIL Silicone Spray (ALS)?

Answer:

AMSOIL Silicone Spray is an aerosolized spray using silicone as the main active ingredient. It is designed to be used on non-metallic surfaces consisting of nylon, cardboard, fiberglass, wood, leather and plastic. It can also be used on metal surfaces that come in contact with these non-metal surfaces.

2. Question:

What are the benefits of using AMSOIL Silicone Spray?

Answer:

AMSOIL Silicone Spray is an outstanding lubricant for soft surfaces that deform under pressure like plastics and rubber. It helps to keep these surfaces soft and pliable. It also locks out moisture helping keep surfaces dry and free of mold. Silicone Spray is colorless, odorless, non-staining and dries quickly. It will not attract dust or dirt, keeping applications contaminant free.

3. Question:

What are the typical applications of AMSOIL Silicone Spray?

Answer:

Silicone Spray can be used on sliding glass doors, sliding windows, locks, leather, wood, belts, guides, rails, conveyors, gym equipment, sporting equipment, boots and shoes, zippers, automotive seats and carpet, upholstery and other non-metal surfaces.

4. Question:

Can Silicone Spray be used on leather jackets or leather car seats?

Answer:

For leather and sensitive surfaces, initially apply to small area. Silicone Spray may slightly alter the color or hue of the leather. This could be a concern for users who are unfamiliar with application of waterproofing materials. Silicone Spray is not damaging to leather. Repeat application to surfaces as needed.

5. Question:

Where can AMSOIL Silicone Spray be disposed/recycled?

Answer:

Consult the local regulations before disposing of the empty can. States may have different regulations for disposal of Silicone Spray. Remember that the contents of an aerosol can are under pressure and may explode if punctured or exposed to heat. If there is left over product in the aerosol can, it should be used or brought to a household hazardous waste collection site for proper disposal.

6. Question:

How much AMSOIL Silicone Spray should be used for one application?

Answer:

Apply an even light coat. Repeat as necessary for additional lubrication or water repellent.

7. Question:

What package sizes are available?

Answer:

Silicone Spray is offered in a 10 oz. spray can and in cases of 12 cans per case.

8. Question:

Are there any environmental or regulatory concerns using this product?

Answer:

AMSOIL Silicone Spray can be sold in all of the 50 United States.
